Subject: ENVI issues with volume maps  
Date: Fri, 21 May 2010 21:53:13 -0600  
From: Todd M Hoefen <thoefen@usgs.gov>  
To: Roger N Clark <rclark@usgs.gov>

Hey Roger,

It looks like ENVI isn't happy with some of the files that were created. It opens the thickness maps just fine but the areal fraction and volume maps are all messed up. The only difference I could see was that the volume and areal maps are byte and the thickness map is floating point.

Todd
