Vic/Julie,

When will the FRTG report and talking points be released? Please provide an estimated day and time. If a day and time cannot be provided, please provide a statement as to why that we can send out to the many folks waiting on this information. Thank you!

This requested is prompted by yet another request: this time from the Senate Finance Committee via NOAA. See below for more information.

Thanks,

Catherine

Joe,

I think it better that the folks that are running the FRTG provide the statement. I cc'd Catherine Cesnik who is working with Dr. McNutt who leads the group.
