Cc: Mark K Sogge

History: This message has been replied to.

Marcia, the meeting today was largely tactical and focused on improving communication between the NIC - IASG TG with similar issue groups formed by the Coast Guard. I will forward a separate email identifying the NIC Issue Groups. Mark Sogge and I both participated on the call, but with your schedule and the difficulty to follow the flow of the meeting on the phone, I suggest that I handle future meetings and provide follow-up to you and Mark.

Today's suggestions included:

Each TG's needs to be thinking about what to do to move our respective issues forward

Provide updates on the areas of concern for the TG's

Provide regular updates on the TG's future plans, short term and long term

What are we doing next week that may provide potential scheduling opportunities for senior leadership to highlight our TG

What questions are being vetted by the press that we aren't addressing
