Subject: Marcia: running into hurdles in getting files uploaded

Hi Marcia,

I am working with Andy Oare and Cammie Croft of DOE, to get the video files up on the FTP site. Several hurdles appear to be stumping us:

- they do not have an FTP URL to give me so that I can upload the files from here
- I have connected them with Bill Lehr; he will give them access to his team's FTP site so that Andy/Cammie can download to the public site, but Bill predicts many hours of downloading. They may be able to start downloading tonight... still checking.

So unfortunately, it is almost certain that we will not get these files uploaded tonight, and it may take quite some time tomorrow. Am trying to get a better handle on it, and will let you know. Once I know a bit more, I will update David Hayes (unfortunately with disappointing news).

Mark
