Director McNutt--

Dave Fahrenthold here from the Washington Post. I'm very sorry to bother you--normally I would go through AB, but I understand she's in the mountains and out of range. I had heard you were planning on releasing a new flow-rate estimate for the MC 252 spill tonight, and I wanted to make sure I didn't miss it. Do you know when that will happen?

I'm at [REDACTED] if you'd like to call.

Thanks again,

DF
