Guys,

Here is the MAC solution:

QuickTime requires the Cineform codec. Get it (Neo Player) from  
<http://estore.cineform.com/neoplayer.aspx>

It now works...

Thanks, Pedro

Find a PC. I had absolutely no problems with the several PCs I've used to view and decompile the videos.

**Subject:** Problems viewing the tophat video in a Mac

Guys,

I have not been able to do it. Anyone viewing them in a Mac? Any advice?

Thanks, Pedro
