We're not releasing the report with the statistics, so no need to change that, unless you think you need to. I've attached the latest version of the press release. Bill and Marcia: can you work with Vic to edit the Plume Team section so that you are comfortable with it?

Thanks,

Matt

Well, ok, then we have to change the report with the statistics. That was the last thing I saw. Sorry for all of the confusion.

Marcia,

I have an email from Steve agreeing to the 20 K bbl. The group will not be pleased if their numbers are not reported as agreed.

Marcia -- I'm going off what Bill Lehr told me -- that the group's consensus was the low was 20,000 and the high was 40,000. He indicates Steve Werley agreed with 20,000 being the low end, and doesn't think 15,000 as a low is representative of the group. Clearly your call; I'm just passing what he's said.

No - Steve Werley's lowest end number was 15,000. It is in the report.

Matt,

Some additional comments; main change is that the plume team's low end should be 20,000, not 15,000.
