Sub woods Hole Write-up -- need asap
ject:

We need a write-up ASAP regarding the Woods Hole flow estimate work that has been done.

Thanks.

Thanks. USGS? We need to complete reviews in the next few minutes.

Thanks

Subject: FOR IMMEDIATE REVIEW - close hold - draft release on updated Plume Team estimates

Hi all,

Attached is an updated version of the press release based on some initial feedback and review. Also attached is a list of FRTG teams and a short description about each that we would like to post on the website, along with a list of members and their bios.

Please review and let us know if you have any additional edits.

Thanks,

Julie

Subject: FOR IMMEDIATE REVIEW - close hold - draft release on updated Plume Team estimates

Hello everyone,

We have updated information from the Plume Team regarding flow rates from before the riser cut. We are working to get the information out as quickly as possible, and perhaps even tonight.

Can you please review the attached DRAFT statement from Marcia (06-08-2010 FRTG update)?

We would link to two other documents from that statement, which are also both attached.

Please keep these documents close hold and provide me your comments on the Dr. McNutt statement ASAP (within the next 30 minutes).

Marcia, I will alert you if we are able to make this announcement tonight so that you can tell the Plume Team scientists.

Thanks,
Matt
