Dr. McNutt,

so many numbers thrown around. Just to be clear, estimates range from 20,000 barrels to 50,000 barrels a day pre-cut, with your best feelings in 20,000 to 40,000 range. And what were the two WHOI names again? I got Rich Camilli but kept missing hte other?
And is 20 pct still a good ballpark for post-cut until you get a good number

Seth Borenstein
