Hi Dr. McNutt,

I'm a chase producer with CTV News Channel in Toronto, a 24-hour national news station. We were wondering if you would be available to do a phone interview with us later tonight to talk about your latest research into how much oil is actually leaking into the Gulf. Please let me know if you would be available tonight. Or if you have any time tomorrow, we would definitely be interested in talking to you then.

Thanks so much, and I look forward to hearing from you!

Best wishes,

Carly
