Hi Mark,

Would you mind taking a look at the attached with respect to the FRTG?

NSTC's Subcommittee on Disaster Reduction, which David chairs, is updating a summary of agency activities related to the spill for OSTP.

Please let David know if you'd suggest changes.

Thanks!

Subject: updated USGS information

All,

Attached is my attempt to summarize all our science and technology activities for the roll-up going to OSTP. If you get a chance to give it a scan, please let me know if you have additions/corrections.

I modified the FRTG section from what Judy provided me earlier, incorporating material from today's DOI press release and Marcia's press conference.

Any chance to give it a scan this afternoon would be most appreciated but understand that is asking a lot.

Thanks, Dave
