Bill -

Is it worthwhile to make a formal request from te FRTG to get videos of flow from the Top Hat before the Q-4000 came on line and after? I am wondering if it might be interesting for the team to compare the difference in the flow escaping from the cap.

Marcia

OK - I will ask for that information.

Subject: Re: request?

Marcia,

I know that the UW people were interested in that and I, personally, am curious as well.
