Show Details

Good news! The FRTG Mass Balance Team report is now downloadable as a USGS Open File Report:

**Estimated Minimum Discharge Rates of the Deepwater Horizon Spill—Interim Report to the Flow Rate Technical Group from the Mass Balance Team**

By Victor F. Labson, Roger N. Clark, Gregg A. Swayze, Todd M. Hoefen, Raymond Kokaly, K. Eric Livo, Michael H. Powers, Geoffrey S. Plumlee, and Gregory P. Meeker

<http://pubs.usgs.gov/of/2010/1132/>

It is my understanding that links will be created so this report can be accessed from the Deepwater Horizon response site and the USGS oil spill response pages.

Note that this report will be included as an appendix in the FRTG final report.
