Subject: RE: Status of JIC approval of USGS Mass Balance report

Will try to push through today. We have a lot going on with MMS so it's been hard to get folks attention.

Will be in touch.

Julie

Hi Julie,

I am being a squeaky wheel on this... any word yet?

I should have word in the next 2 hours. Will keep you posted.

Please standby ☺.

Thanks,

Julie

I can't say there is an immediate deadline, but we are getting requests from EPA and others for the information. An ideal timeframe would be by the end of today, as that would allow our publications people to make the web link active before they leave for the weekend. Is that feasible, since it is a short document?

Just received an e-mail. It's going through the process. Are you all on deadline with anyone to get it posted? If so, please let me know the idea timeframe and I'll see what we can do to move things along.

Hi Julie,

I believe that the USGS Mass Balance report (an Open File Report by Labson et al.) was submitted Wednesday or Thursday for JIC release approval. Two questions:

- 1) was that submitted through you?
- 2) if so, any word yet on the JIC approval?

I appreciate any update you can provide.

Mark
