Martha -

Good news....a webex demo would be great....recommend an afternoon demo...I have a call at 3:30 to 4  
tomorrow otherwise should be free.

The USGS Development Team is finalizing the tool we discussed that will allow the Coast Guard to compile a daily "oil budget". The Team demoed the tool today with fellow USGS staff and with the NOAA folks that are providing the scientific calculations and assumptions that drive the tool. Their efforts are impressive and it is ready to share with appropriate Coast Guard staff for feedback. Let me know your availability and who we should include in a WebEx demonstration. Ideally, we would like to meet tomorrow or Thursday as our goal is to give the Coast Guard a product that can go onto operation by the end of the week. Let me know. Thanks
