Cesnik

The USGS Development Team is finalizing a tool we that will allow the Coast Guard to compile a daily "oil budget". The Tool will be demoed today at CG HQ in Conf Room 5-1331 at 1:00 pm.

We look forward to getting your input to finalize the tool use by the CG.

The link for the WebEX follows:

Martha...Lance has transferred out....CDR Pete Hoffman now fills that role with all the joy that comes with :)

Pete...Martha is the FRTG rep in the IASG room....she is the link to Dr. McNutt and her team and provides a daily oil budget input to the SITUNIT reports....I would recommend you and some of your staff participate in the WEBEX today on the oil budget. Will mention at the 7:30 meeting.

Bill

Bill, any value having Lance Lindgren as part of the discussion? He worked closely with the previous spreadsheet before he was reassigned and knew the frustrations more than others.

Bill, I'll see what I can do to get something arranged around 1. Any suggestions on others to include?  
Thanks

Martha -

Good news....a webex demo would be great....recommend an afternoon demo...I have a call at 3:30 to 4 tomorrow otherwise should be free.

The USGS Development Team is finalizing the tool we discussed that will allow the Coast Guard to compile a daily "oil budget". The Team demoed the tool today with fellow USGS staff and with the NOAA folks that are providing the scientific calculations and assumptions that drive the tool. Their efforts are impressive and it is ready to share with appropriate Coast Guard staff for feedback. Let me know your availability and who we should include in a WebEx demonstration. Ideally, we would like to meet tomorrow or Thursday as our goal is to give the Coast Guard a product that can go onto operation by the end of the week. Let me know. Thanks
