Thanks Vic. I know we have many folks who've given up a lot of personal time to devote to this effort in particular as well as the overall effort, we'll try to find an appropriate way to recognize them all. For now, please let them know there's great appreciation in the DO and at DOI.

Thanks again.

Judy,

Roger Clark's report was released last night. I'm not too sure who has been notified. As soon as NASA can fly again there should be additional results. I've inquired about plans.

A lot of people went to great lengths to get this out as a publication. It was nice to see everyone pull together.

Vic
