

The American Water Works Association and the National Association of County and City Health Officials

invites you and your staff to a briefing for Members of Congress

Second in the "Science, Society, Solutions" series:

Your Health: What's USGS Got To Do With It?

The past several years have seen growing recognition of the connection between the environment and human health. Learn how Federal and State health agencies are using USGS earth and biological science information to address environmental problems that can affect human health.

*USGS studies contaminants
in drinking water sources.*

*Some mosquitos can infect
humans with West Nile virus.*

Thursday, May 17

10:00 am - 11:00 am
Cannon House Office Building,
Room 311

Refreshments will be served

Sponsored by Representative Tom Davis
and Representative Ralph Regula

Speakers:

Charles Groat, Director
U.S. Geological Survey

Dr. Kenneth Olden, Director
National Institute of Environmental Health Sciences

Ms. Ginny Stern
Washington State Department of Health

Upcoming briefings in the series include: Energy and Invasive Species
