

FY 2026 NGWMN Projects

Arizona Department of Natural Resources

The Arizona Department of Water Resources (ADWR) is a current water-level Network data provider. This is a two-year proposal to provide persistent data services under Objective 2A.

Illinois State Water Survey (ISWS)

The Illinois State Water Survey (ISWS) is a current water-level and water-quality Network data provider. This is a one-year proposal to fill data gaps by performing high-precision RTK GPS measurements for 31 wells under Objective 3.

Indiana Department of Natural Resources Division of Water (INDNR)

The Indiana Department of Natural Resources Division of Water (INDNR) is a current water-level Network data provider. This is a two-year proposal to perform downhole camera surveys and slug tests at 20 NGWMN sites under Objective 4.

Indiana University, Indiana Geological and Water Survey (IGWS)

The Indiana University, Indiana Geological and Water Survey (IGWS) is a current water-level and water-quality Network data provider. This is a one-year proposal to install 3 new monitoring wells under Objective 5 and install continuous water-level monitoring equipment in 9 wells under Objective 6.

Iowa Geological Survey (IGS)

The Iowa Geological Survey (IGS) is a current water-level Network data provider. This is a two-year proposal to drill a replacement well into the Silurian Aquifer under Objective 5.

Maine Geological Survey (MGS)

The Maine Geological Survey (MGS) is a current water-level Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A, fill data gaps for 3 newly added wells under Objective 3, and install continuous water-level monitoring equipment in four wells under Objective 6.

Mississippi Department of Environmental Quality (MDEQ)

The Mississippi Department of Environmental Quality (MDEQ) is a current water-level Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A and to install telemetry enabled pressure transducers to increase the frequency of water levels served to the NGWMN for 10 Trend network wells under Objective 6.

Missouri Department of Natural Resources (MODNR)

The Missouri Department of Natural Resources (MODNR) is a current water-level Network data provider. This is a one-year proposal to install 1 new monitoring well under Objective 5 and install continuous water-level monitoring equipment in 5 wells under Objective 6.

Montana Bureau of Mines and Geology (MTBMG)

The Montana Bureau of Mines and Geology (MTBMG) is a current water-level and water-quality Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A and install continuous water-level monitoring equipment in 28 wells and upgrade equipment at 5 sites under Objective 6.

New Mexico Bureau of Geology and Mineral Resources (NMBGMR)

The New Mexico Bureau of Geology and Mineral Resources (NMBGMR) is a current water-level Network data provider. This is a one-year proposal to maintain persistent data services under Objective 2A and install continuous water-level monitoring equipment in 4 wells under Objective 6.

North Carolina Department of Environmental Quality (NCDEQ)

The North Carolina Department of Environmental Quality (NCDEQ) is a current water-level and water-quality Network data provider. This is a two-year proposal to install barometric pressure and continuous barometric and water-level monitoring equipment at 100 locations under Objective 6.

Ohio Department of Natural Resources (ODNR)

The Ohio Department of Natural Resources (ODNR) is a current water-level Network data provider. This is a one-year proposal to fill gaps by conducting physical and geophysical downhole surveys at 17 existing NGWMN well sites under Objective 3 and to install continuous water-level monitoring equipment in 5 existing NGWMN wells under Objective 6.

University of Nebraska-Lincoln, School of Natural Resources, Conservation and Survey Division (UNLCSD)

The University of Nebraska-Lincoln, School of Natural Resources, Conservation and Survey Division (UNLCSD) is a current water-level Network data provider. This is a one-year proposal to provide persistent data services under Objective 2A.

Washington State Department of Ecology (WADOE)

The Washington State Department of Ecology (WADOE) is a current water-level and water-quality Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A and install continuous water-level monitoring equipment in 5 wells under Objective 6.
